## 10K DC Sink Filters

FOR HOMES WITH CITY WATER

10,000 Gallon Undercounter Kitchen Sink Filter

*Drink & Wash Fearlessly!*

Clearbrook 10K Sink Filter treats municipal water so you and your family can have pure, clean, contaminant free drinking water, great tasting coffee, or just peace of mind for washing your hands.

### Enjoy Great-tasting Coffee

**Safe Drinking** – Removes contaminants so you can enjoy bottled water quality at a fraction of the cost

**Fill water bottles** from the sink and refrigerate for use when needed

**Cleaner Dishes** – No more water marks on your dishes!

**Healthier Skin** – Leaves skin soft and supple instead of dry and leathery

**Safe Drinking** – Removes contaminants so you can drink fearlessly

### Clean, Safe Water

Clearbrook 10K Kitchen Sink Filter is made from a multi-blend of catalysts that remove the contaminants commonly found in municipal water so you can drink safely and utilize your water source as intended. Removes:

Chlorine • Bad Tastes & Odors • Lead and other Heavy Metals

### Easy to Install & Maintenance Free

The Clearbrook 10K Kitchen Sink Filter fits neatly under your kitchen or bathroom sink. It comes with easy-to-understand installation instructions and everything you need to connect it to your faucet. It takes only minutes using Clearbrook's "Direct Connect" installation system. Clearbrook 10K Kitchen Sink Filter requires no maintenance and lasts for 3 years.

### Lasts for 10,000 gallons or 3 Years!

Unlike ordinary filters, which only last for months, Clearbrook Sink Filters will last for a minimum of 3 years. Clearbrook can manufacture filters that only last 3 to 6 months but there is little value in shortening the lifetime of filters. Clearbrook wants you to install it and forget about it. Go do something else with your time and hard earned. Install it and forget about it...Clearbrook Sink Filter lasts for 3 long years.
